

VANTAGE-VC6™

Coinco's new Vantage-VC6™ delivers increased profits by combining credit and debit card acceptance with conventional bill technology.

KEY BENEFITS

- Increase sales by offering customers more ways to pay. Accepts bills, credit cards or debit cards, and coupons.
- Intuitive vertical card swipe ensures reliable transactions time after time.
- Illuminated card and bill paths capture attention for additional throughput.
- Audible feedback and high contrast display guide consumers through the sale; resulting in repeat visits and increased sales.
- Built on the intelligent and profitable Vantage® system, the Vantage-VC6™ gains you access to the growing cashless market.
- Designed for ease of use, the optimized ergonomics make it the best product for your application.
- Adaptable to Vantage bill recycler.

User friendly features translate into increased sales.
